**We satisfy your wishes!**

**Structures of the future!**

**Home Solid Home!**

**Our fundamental principle: High Results!**

**We shelter your dreams!**

**We built Solutions!**

**Building Dreams!**

**Experience. Values. Excellence.**

*“At first, we shape the buildings we make. After a while, they shape us”*

*Winston Churchill*

## **Who we are**

In A-Culture we represent exactly the meaning of our name. By this, we mean, we have our own culture that makes us distinguish in a difficult and competitive field. Our goal is to create buildings that reflect timelessness and high quality so as to build high-tech, luxurious structures with aesthetic quality that will provide safety. That is why, we study every new conceptual design and manufacturing drawings, we do constant market research and engineering based in the international permission procedures. And then... we let our imagination take charge! We share our vision with a well qualified team who makes everything become true!

## **Structures with... culture!**

Our goal is to invest in pioneering energy applications, innovate in new technologies and offer luxurious residents that last for a life time! That is why, we invest in structures that make your lives better. Because every new project is a challenge to create... from the beginning!

## **Services**

### **Buildings that last for a life time!**

Our priority is to build not only for you but for the next generation as well. Our services include: structure for luxurious residents, professional spaces, renovations, maintenance works, arbitrary arrangement, financial permits, energy certifications, etc.

### **Luxurious Residences for Sale**

Having a residence that you can enjoy for a life time is not a luxury. It is a quality of life. That's what we want to offer!

### **Certificates of Energy Efficiency**

According to the European directive, all the structures are obligated to have certificate of energy. This helps to understand the energy consumption about electric, natural gas, oil, renewable energy sources. The specific certificate is obligate either in renting or selling a property.

### **Architecture Study**

Our company has the expertise to prepare a topographic or architectural study according to your needs. Every project is unique just like you.

### **Environmental Study**

The environmental study is also very important because, we take under consideration all the alternatives in order to respect and follow all the required specifications before starting to build. We always respect nature in order to create the ideal environment for you!
